SERVICEABILITY OF CONCRETE BEAMS REINFORCED WITH FRP BARS

SPS Sep 2014, 2014. Taschenbuch. Book Condition: Neu. 220x150x12 mm. This item is printed on demand - Print on Demand Neuware - This research program aims at investigating the flexural behaviour and serviceability performance of concrete members reinforced with different types and ratios of carbon and glass FRP bars and fabricated using normal- and high-strength concretes. In addition, it evaluates the bond-dependent coefficient (k_b) of glass and carbon FRP bars in normal- and high-strength concrete beams. The experimental program included fabricating...

Reviews

This is the very best publication i actually have read until now. It really is packed with knowledge and wisdom I am happy to let you know that this is the very best publication i actually have read in my very own existence and could be he greatest pdf for ever.

-- **Dr. Nelda Schuppe**

This pdf is indeed gripping and exciting. It is writter in easy words and phrases and not confusing. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Alayna Kuphal**

The most effective publication i at any time go through. This is certainly for all those who statte that there had not been a worthy of looking at. Its been printed in an extremely straightforward way which is merely soon after i finished reading this publication where basically changed me, change the way in my opinion.
