In recent years, Alister McGrath has gained prominence as one of evangelicalism's preeminent theologians. A brilliant scholar and communicator, he combines the clarity of thought of a scientist (he holds a Ph.D. in molecular biology) with the deep convictions of a committed Christian and theologian. *Studies in Doctrine* contains four of McGrath's more popular theological works: *Understanding Doctrine* explains what doctrine is, why it is important, and what its limitations are. *Understanding the Trinity* moves from a superb apologetic for God's existence, to developing a concept of God, to a probing and balanced examination of the Trinity proper. *Understanding Jesus* is a basic, eminently readable, and surprisingly personal introduction to the person and work of Christ. *Justification by Faith* demonstrates how the vitality and relevance of the doctrine of justification by faith can be recovered and presented to contemporary culture. This volume gives the student and non-specialist a clear, thoughtful, and highly readable introduction to the basic doctrines of the Christian faith.
